Dear Sir/Madam,

I direct a very active scout group for junior high boys called the Naturalist Scouts. Last summer we biked from Toledo to Niagara Falls in 5 days. It was 395 miles. This summer we plan to start near Niagara Falls on June 21st. and bike as far east as we can in a week. We hope to reach Syracuse in 2 days. We will be carrying full gear on the bikes.

1. What can you tell me about the bike trail that follows the old Erie Canal across New York?
2. Can you suggest camp grounds west & east of Syracuse?
3. Could you have one of your members lead us through or around Syracuse. Please include their phone # so I can let them know if weather is changing our plans.

Sincerely

Larry L. Lindsay
